

#1 Tool for Success ~ Your Thumb

Results in the world

Emotional ego that drives you to accomplish

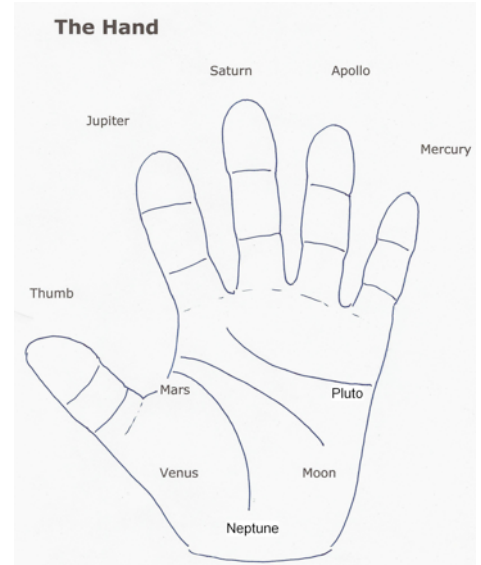

Intelligence you use to discern and make choices

Creative expression of your dreams and desires

www.AcademyofHandAnalysis.org

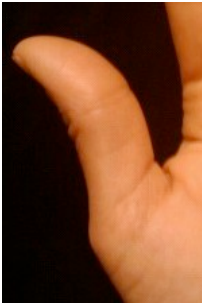

The position of your thumb, along with its quality, shape and length accurately shows how you will get results.

Which section is longest?

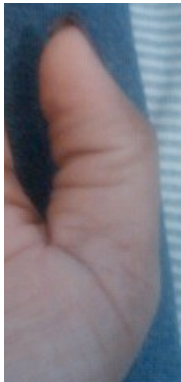

The longest section on your thumb shows where you spend the most time in regards to your results.

The upper section says, "Lets get in the car and go to the beach now!" (*will* to take action)

The middle section says, "Let me look at the calendar and determine when is the best time to make this trip; then I'll decide" (brings *intelligence* to the dream).

The bottom section says, "I dream of taking a vacation to the Beach" (concentration/talk about dreams/desires).
