

Curvature — The natural position when your thumb is at rest

Do your emotions or your reason rule?

Straight thumbs belong to people who are ruled by reason. If you have a straight thumb it matters how you *think*. How you think directly affects how you get results.

Curving thumbs belong to people who are ruled by emotions. If you have a curving thumb it matters how you *feel*. How you feel directly affects how you get results.

Curving thumbs on the dominant/active hand indicates being influenced by *emotions* in the outer world/public. Likewise, curving thumbs on the non dominant/passive hand indicates being influenced by emotion at home, in private.

Straight thumbs on the dominant/active hand indicates being influenced *reason* in the outer world/public. Likewise, straight thumbs on the non dominant/passive hand indicates being influenced by reason in the inner world/private/home

Your Thumb Shape and Your Results

Do your emotions or your reason rule?

Right Thumb

Left Thumb

This gentleman has one thumb that is straight and one thumb that curves.

A curving thumb on his left/non dominant/passive hand indicates being affected by emotions in the inner world/private/home. A straight thumb on his right/dominant/active hand indicates being ruled by reason in the outer world/public

The position of your thumb, along with its quality, shape and length accurately shows how you will get results.

Curvature and Flexibility When 'tested'

This naturally curving thumb bends even more when it's 'tested.'

Find out how to test your thumb and what it means in your next Thumb Lesson with the AAHA.
